Same-Sex Bathrooms

“It would be better for him if a millstone were put around his neck and he be thrown into the sea than for him to cause one of these little ones to sin.” (Saint Luke 17.2)

Of Children as Chattel

Who is with *YOUR* Child in the Public Bathroom Today?

To whom does your child belong?

To the LGBTQ+ lobby — or *their* politicians who legislate “Correct” Public Policy to which *you yourself* conceded in your eagerness to demonstrate that *you, too*, are among the “accepting, enlightened and progressive”— so that men disguised as women may loiter in the “Little Girl's Room”? Are *your* children *their* chattel?

NO! They belong to God! ... far more, *ever more* ... than they are theirs — or even *yours*.

Do you think that God will be blind to those who have led His little ones into sin through a perverse agendum that accords with their own depravity, “advocating” and “agitating” for perverse, hermaphroditic education that teaches children “to question their own sexuality”— and at so tender an age when barely they grasp it; “to experiment with their sexuality in classrooms”, to use “same-sex bathrooms” — all of which confuses the little ones of their deepest identity as little boys, as little girls; **lying to them that the choice of their sexual identity is their own and not infeasibly radicated in nature and given by God**; a misanthropic “education” which encourages them *to explore and experiment with* homosexuality, lesbianism, bisexuality, and trans-sexualism in an attempt to

legitimize the adults *own* debauchery and to further their own perverse, evil, and selfish ends.

They are little!

They are His!

And you have no place with either — God or children — when, in whatever manner, through whatever device, by whatever deceit, you bind little ones — in any way — to this darkness of sin unspeakable ...

Yes, you can deceive the little children.

It is so easy ...

But you *cannot* deceive God.

Know this of a certainty: the very sea calls to you, who make chattel of children ... and how terrible is its depth!
